

Tom Rossae

Tom Rossau

Heart to the head to the hand

Since 2004 Tom Rossau's collection of sculptural lights have formed part of the contemporary Danish design scene. A self-taught designer Tom relies on his curiosity of form, his sensitivity to atmosphere and his love of honest materials. The warm stringency typical of Scandinavian design is easily recognizable in his work, testifying to an undeniable Danish design heritage. The entire collection is hand-built by the dedicated crew of Tom Rossau workshop located in the heart of Copenhagen, giving authenticity to the label 'Made in Denmark'. The 2017 novelties continue Tom's organic signature line but also introduce models of a stricter geometry and new cool materials. Enjoy!
